

FACING CLIMATE CHANGE

FOCUS ON CONSERVATION 2022

November 29 – December 2, 2022, online

Homepage: www.museums.cam.ac.uk/facing-climate-change

Registration (Participation is free): <https://bit.ly/3CRRZqE>

Contact: info.cec@mfn.berlin

Climate change is creating new threats to the preservation of cultural heritage. Museums may already struggle to provide the best possible care for their collections, and with increasing weather extremes and shifting pest species ranges, the challenges are mounting. This virtual conference will address some of the issues, exploring sustainable pest management; protecting collections and heritage from climate change; using more environmentally friendly conservation methods and incorporating these themes into conservation education. The meeting will take an international perspective, with contributions from the global South and the global North.

PROGRAMME

Day 1: Tuesday 29 November 2022

Sustainable Pest Management solutions

UTC 1.00 PM – 3.50 PM

OPENING

DIALOGUE

Udaya Cabral

National Library of Sri Lanka;
Colombo, Sri Lanka

Pascal Querner

IPM in Museen and Natural History Museum
Vienna; Vienna, Austria

TALKS AND Q&A

BREAKOUT SESSION

DAY 2: Wednesday, 30 November 2022

Climate Change and Collections' protection

UTC 7.00 AM – 9.30 AM

DIALOGUE

Amanda Pagliarino

Queensland Art Gallery | Gallery of
Modern Art; Brisbane, Australia

Stefan Simon

Rathgen-Forschungslabor, Stiftung Preußischer
Kulturbesitz, Staatlichen Museen zu Berlin;
Berlin, Germany

TALKS AND Q&A

BREAKOUT SESSION
